**New Distributor in Germany and Austria for Fastec Imaging:
MIKROTRON GmbH**

San Diego, January 1, 2010 – FASTEC IMAGING, a major manufacturer of portable high-speed digital video cameras announces the appointment of MIKROTRON GmbH as their distributor for Germany and Austria. Mikrotron manufactures high speed video systems, machine vision cameras, and frame grabbers.

“It is extremely important for Fastec Imaging to work with a distributor who shares the same goals as Fastec and has the ability to provide our customers with first class service and support”, said Stephen Ferrell, president of Fastec. “Mikrotron clearly fits the criteria we identified to promote our high speed digital video cameras effectively and to allow Fastec to move the business forward in this key strategic market”, he added.

In making the announcement, Fastec president, Stephen Ferrell noted, “Mikrotron’s profound knowledge in all areas of high speed cameras enables us to expand our business in the German market”. Mikrotron’s Juergen Zimmermann, VP Marketing and Sales, adds “we are pleased to be offering Fastec cameras in the German and Austrian market. By signing the agreement with Fastec Imaging we are able to expand Mikrotron’s product range. Fastec products ideally complement our own product range, because it gives us a much broader capability in offering our customers the perfect solution for every special application. It is Fastec’s philosophy of ‘designing and building high-speed cameras that offer excellent performance at reasonable cost, tailored to the needs of specific markets’ that make them the perfect partner for us.”

###
